New Press Brake DENER XL 4000x175 ton

Descrizione

New Press Brake Ready for Delivery: Dener 4050×175 ton

If you are looking for a new and high-performance press brake, you are in the right place. This Dener 4050×175 ton press brake, available for immediate delivery, offers all the necessary features for precise, fast, and reliable operations.

Why choose a new press brake?

Opting for a new press brake means ensuring:

- Maximum efficiency: advanced technologies reduce errors and improve productivity.
- Lasting reliability: reinforced components and modern design to withstand intensive loads.
- Usage flexibility: customizable configurations to adapt to different production needs.

Technical specifications of the new Dener 4050×175 ton press brake

- Capacity: 175 tons.
- Bending length: 4050 mm.
- Esa 875 control with 6 controlled axes for maximum precision.
- Frame throat 450 mm, opening 600 mm (expandable).
- Distance between frames 3555 mm: perfect for large-scale operations.
- Reinforced linear guides with double sliding guides on X axes.
- Additional rear idle stops for optimal support.
- 22 kW main motor and 300-liter tank.
- Machine weight: approximately 14,150 kg.

Advantages of this New Press Brake

- Ready for delivery: no waiting, start working immediately with a reliable machine.
- Superior precision: ideal for complex and large-scale bending operations.
- Robustness: high-quality materials and cutting-edge design.

Investing in a new press brake like this means improving your production and achieving impeccable results.

Don't miss this opportunity

This new Dener 4050×175 ton press brake is the ideal choice for those seeking innovation and high performance. Contact us immediately to receive a personalized quote or for more information!

Enhance your production facility with a new press brake: quality and performance guaranteed!
